

RANDING	Design your own brand Publish your brand instore No third party required
	Multiple stocktakes SmartGrids - editable search fields See on screen what is important to you
	Access anywhere anytime Cloud ready Worldsmart Ecosystem API available Leverage MS Excel and PDF
TECHNOLOGIES	Browser based Run locally or cloud Latest technologies Inbuilt tutorials Cloud backups automated
	Auto reports (run, email and print) Task scheduling - no end of days Auto host (collect, process, print) Auto statements - email Excel anything - edit and re-import
BUYING	Multiple suppliers, multiple costs Demand driven purchasing Smart Investment driven decisions
CUSTOMISATION	User/role based secure access User defined views

**SmartRetail is the Retail Management solution for your business** 

SmartRetail is based on the latest database and web technologies to provide maximum flexibility and multi-function access anywhere anytime. SmartRetail is so flexible it can be installed instore or in the cloud.

SmartRetail is designed to increase your revenue and reduce your operating costs by automating a range of key functions, putting more money in your back pocket.

SmartRetail connects you with your business.

- Access from anywhere anytime
- Automate recurring tasks
- Strengthen your brand
- Smarter buying
- Schedule and email reports
- SmartGrids provide easy edits

SmartRetail uses the latest Microsoft SQL database and web technologies including .NET, HTML5 and AngularJS. SmartRetail is designed to be multi-user and multi-function

- Export to Excel/PDF
- Import and Update from Excel
- Inbuilt tips and tutorials
- Customisable and consistent interface
- Browser based multiple activity tabs
- Remote cloud backups

# **ITEM MANAGEMENT**

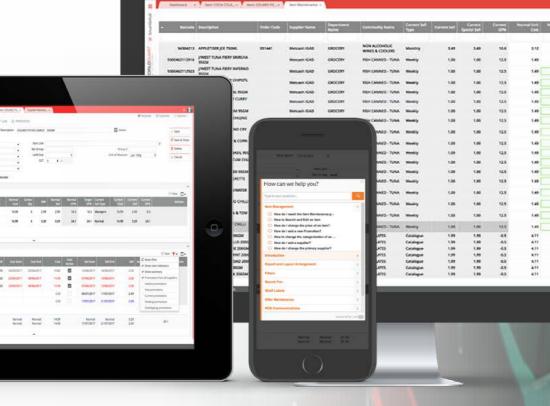

- Customised for your business
- Automate to simplify operations
- Show any column in the search grid
- Choose columns, save layouts and defaults by user
- Change prices, promotions, stock info etc. with in-grid editing
- Generate labels and POS changes from one screen
- Work like a web browser and perform multiple activities in different tabs
- Multiple scale brands can be supported in one store

## **ITEM MAINTENANCE**

- Multiple suppliers per product with separate cost, sell and promotions
- Multiple barcodes per item
- Manage country of origin requirements & scale info from one screen
- Consolidates sales & purchase by item
- All hierarchy rules available at item level
- Item updates are linked to the user, so label changes can be printed by user
- Send just your changes to POS
- · Advanced filtering, column chooser and editing of items directly in the search grid
- · Eliminates need for price books, stock reports or GP exception reports.
- Review pricing and GP for items on special

**WORLD**SMART pos + loyalty solutions

- Nutiritional panel designer is in-built
- Multiple print formats by location

# **HOST MANAGEMENT**

- Automated host processing
- All hosts have a host preview

25.5 25.5 253 265 25.5 25.5 25.5 255 25.5 25.5 25.5 25.5 25.5 25.5 25.5 25.5

25.5 17.8 4.6 17.9 17.9 17.9 17.9 17.9 17.9

5.00 4.49 5.00 5.00 5.00 5.00 5.00

- Supports multiple warehouses
- Multiple suppliers hosted via Excel hosting
- Preview editing of costs, sells and promotions
- Restore hosting in the application
- Department and category mapping by supplier
- Automatic schedule collection and processing
- RRP is locked for hosted suppliers making comparisons easier

# **CUSTOMISATION**

- Assign users multiple roles with effective dates
- Rule engine allowing automation for applying business decisions
- · Quickly identify hierarchy rules at any level, including range, supplier and item categorisation
- · Control discounts in hierarchy e.g. turn off discounts for range indicator or commodities

### **INVENTORY**

- Multiple supplier enables purchase from preferred suppliers
- Advanced inventory management
- Direct store delivery and electronic invoicing
- Advanced automatic ordering based on previous sales trends
- Automatic investment buying for products on deal based hierarchy rules
- View historical orders

30000 2700

14000 21000

- · View current and next deals to delay ordering for a better cost
- Schedule & automatically print or email purchase orders

### **ORDER RECEIVING**

- View previous order receipts & invoices
- Invoice date validation
- Review pricing while receiving an order or performing a DSD

### STOCKTAKES

- Multiple stocktake in progress at once
- Customisable valuation report
- Missing item and exceptions viewable in the stocktake
- Multi location

### CONNECTIVITY

- Schedule and automate email reports
- Customise reports and export to Excel, PDF, Word or HTML
- Create graphical reports to visualise information trends
- Full data auditability by user
- Enhanced security, by role, by user, by date
- Customise reports
- Share reporting within your organisation
- Multiple calendar support customise week, month and period ending.
- · Periods can be used differently between accounting processes, balancing and merchandising
- Basket data analysis
- Automated reports & backups
- No "End of Day"
- Expensive server hardware no longer required

# **BUSINESS INSIGHT**

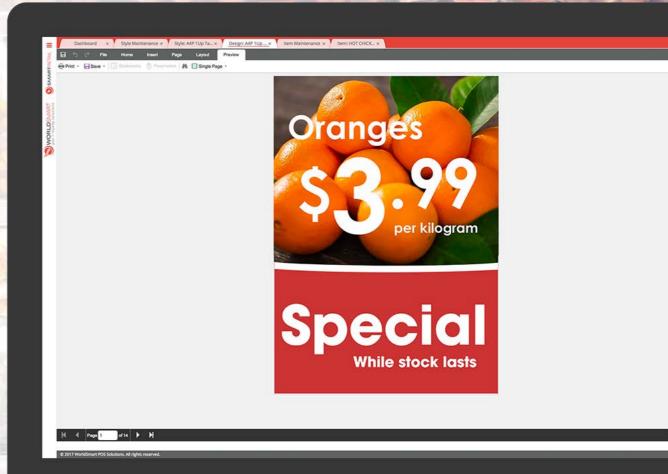

- Built-in and securable data visualisation for better decision making
- Real time store sales and performance
- Multiple dashboards at a glance
- Performance and Trend analysis
- Sales Analyse by Total Store or Department
- Productivity by Total Store or Department
- Measure Sales, baskets, GP and Markdowns
- Promotion sales mix and contribution
- Compare like for like periods years, months, weeks or days

Gain insights into performance and highlight issues in store and by department at a glance

### BRANDING

- Build your brand your way
- Multi-style enabled for labels and talkers
- Comprehensive style designer
- Import and export styles
- Print labels direct from item maintenance
- Third party talker printing software no longer required

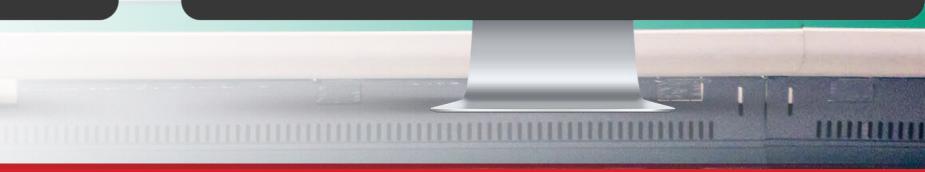

Improve conversations with Department Managers via visual performance measures

WorldSmart is the leading provider of integrated Point of Sale, loyalty, E- Commerce and Business Intelligence (BI) solutions to the FMCG industry.

With over 30 years of experience and over 1600 supermarkets, greengrocers, liquor stores, petrol stations and convenience stores using our systems in Australia and New Zealand, our focus is to help businesses save time and money and drive sales to their stores, putting more money in your back pocket!

With offices in all states, our geographical reach and deep understanding of the markets in which we operate allows us to move quickly and implement solutions that continue to set the industry benchmark.

Smartretail is the evolution of retail experiences combined with the latest web technologies, providing our retailers with a range of efficiencies and features designed to improve your business processes and ultimately profits.

Smartretail is the centrepiece to a stores retail operation, with full integration to all of the Worldsmart product portfolio

Worldsmart has a flexible approach to deployment, as every retailers needs are different. We support Smartretail installations in a Public or Private cloud, or on a Back Office Win10 PC instore.

Smartretail's big brother is Smartretail Headquarters, designed to provide MSO's with complete centralised and customised flexible retail management.

For a completely integrated browser based, cloud ready retail solution for your business, including epay, CCTV, Mobility, Loyalty, BI, eCommerce, Cash Management and POS hardware with implementation services and ongoing support excellence, look no further than the expert team at WorldSmart.
